

# Comparison of numbering of BASTA's criteria

Below is a comparison between the numbering in versions V36 and V35

| Areas                         | Criteria  | Criteria that must be met to reach the respective grade |      |          | Numbering: BASTA-system version V35 |
|-------------------------------|---|---|------|----------|-------------------------------------|
|                               |   | ALPHA   | BETA | DECLARED |                                     |
| CMR                           | <b>V36.H1.A:</b> Carcinogenicity - Category 1A or 1B (H350)   | X   | X    | -        | <b>V35.H1.A</b>                     |
|                               | <b>V36.H1.B:</b> Carcinogenicity - Category 2 (H351)  | X   | -    | -        | <b>V35.H1.B</b>                     |
|                               | <b>V36.H1.C:</b> Germ cell mutagenicity - Category 1A or 1B (H340)  | X   | X    | -        | <b>V35.H1.C</b>                     |
|                               | <b>V36.H1.D:</b> Germ cell mutagenicity - Category 2 (H341)   | X   | -    | -        | <b>V35.H1.D</b>                     |
|                               | <b>V36.H1.E:</b> Reproductive toxicity- Category 1A or 1B (H360)  | X   | X    | -        | <b>V35.H1.E</b>                     |
|                               | <b>V36.H1.F:</b> Reproductive toxicity - Category 1A or 1B (H360) (Requirement in the EU taxonomy)  | -   | -    | -        | <b>V35.H1.F</b>                     |
|                               | <b>V36.H1.G:</b> Reproductive toxicity - Category 2 (H361)  | X   | -    | -        | <b>V35.H1.G</b>                     |
|                               | <b>V36.H1.H:</b> Reproductive toxicity – Additional category for effects on or via lactation (H362)   | X   | -    | -        | <b>V35.H1.H</b>                     |
| Endocrine disrupting          | <b>V36.H2.A:</b> Endocrine disruptors – Category 1 (EUH380 and EUH430)  | X   | X    | -        | <b>V35.H2.A</b>                     |
|                               | <b>V36.H2.B:</b> Endocrine disruptors – Category 2 (EUH381 and EUH431)  | X   | -    | -        | <b>V35.H2.B</b>                     |
|                               | <b>V36.H2.C:</b> Substances excluded from criteria V36.H2.A   | -   | -    | -        | <b>V35.H2.C</b>                     |
| PBT/PMT                       | <b>V36.H3.A:</b> Persistent, bio accumulative and toxic substances (PBT) - (EHU440)   | X   | X    | -        | <b>V35.H3.A</b>                     |
|                               | <b>V36.H3.B:</b> Very persistent and very bio accumulative substances (vPvB) - (EUH441)   | X   | X    | -        | <b>V35.H3.B</b>                     |
|                               | <b>V36.H3.C:</b> Potentially PBT or vPvB  | -   | -    | -        | <b>V35.H3.C</b>                     |
|                               | <b>V36.H3.D:</b> PFAS   | X   | X    | -        | <b>V35.H3.D</b>                     |
|                               | <b>V36.H3.E:</b> Persistent, mobile and toxic substances (PMT) – (EUH450)   | X   | X    | -        | <b>V35.H3.E</b>                     |
|                               | <b>V36.H3.F:</b> Very persistent and mobile substances (vPvM) - (EUH451)  | X   | X    | -        | <b>V35.H3.F</b>                     |
| Particularly hazardous metals | <b>V36.H4.A:</b> Lead or compounds of lead (Pb)   | X   | -    | -        | <b>V35.H4.A</b>                     |
|                               | <b>V36.H4.B:</b> Lead or compounds of lead (Pb) + exemption for moving parts of machine steel   | X   | X    | -        | <b>V35.H4.B</b>                     |
|                               | <b>V36.H4.C:</b> Mercury or compounds of mercury (Hg)   | X   | X    | -        | <b>V35.H4.C</b>                     |
|                               | <b>V36.H4.D:</b> Cadmium or compounds of cadmium (Cd)   | X   | X    | -        | <b>V35.H4.D</b>                     |
| Hazardous to the ozone layer  | <b>V36.H5.A:</b> Hazardous to the ozone layer - Category 1 (H420) or regulation ((EG) 2024/590)   | X   | X    | -        | <b>V35.H5.A</b>                     |
| Fluorinated greenhouse gases  | <b>V36.H6.A:</b> Fluorinated greenhouse gases – F-gases   | X   | X    | -        | <b>V35.H6.A</b>                     |
| Sensitising                   | <b>V36.H7.A:</b> Respiratory sensitisers - Category 1A (H334)   | X   | X    | -        | <b>V35.H7.A</b>                     |
|                               | <b>V36.H7.B:</b> Respiratory sensitisers - Category 1 and 1B (H334)   | X   | X    | -        | <b>V35.H7.B</b>                     |
|                               | <b>V36.H7.C:</b> Skin sensitisers - Category 1A (H317)  | X   | X    | -        | <b>V35.H7.C</b>                     |
|                               | <b>V36.H7.D:</b> Skin sensitisers - Category 1 and 1B (H317)  | X   | -    | -        | <b>V35.H7.D</b>                     |
| Toxicity                      | <b>V36.H8.A:</b> Acute toxicity - Category 1, 2 or 3<br>1. <b>Oral</b> (H300, H301)<br>2. <b>Dermal</b> (H310, H311)<br>3. <b>Inhalation</b> (H330, H331) | X   | -    | -        | <b>V35.H8.A</b>                     |
|                               | <b>V36.H8.B:</b> Specific target organ toxicity (single exposure) - Category 1 (H370)   | X   | -    | -        | <b>V35.H8.B</b>                     |
|                               | <b>V36.H8.C:</b> Specific target organ toxicity (single exposure) - Category 2 (H371)   | X   | -    | -        | <b>V35.H8.C</b>                     |
|                               | <b>V36.H8.D:</b> Aspiration toxicity - Category 1 (H304) – Applies only to chemical products  | X   | -    | -        | <b>V35.H8.D</b>                     |
|                               | <b>V36.H8.E:</b> Specific target organ toxicity (repeated exposure) - Category 1 (H372)   | X   | -    | -        | <b>V35.H8.E</b>                     |
|                               | <b>V36.H8.F:</b> Specific target organ toxicity (repeated exposure) - Category 2 (H373)   | X   | -    | -        | <b>V35.H8.F</b>                     |

| Areas                     | Criteria   | Criteria that must be met to reach the respective grade |      |          | Numbering:<br>BASTA-system version<br>V35 |
